AT LAST.

The old saving that Holdfast is a better dog than Brag receives confirmation in the news from Washington.

The opposition to repeal is to be abandoned. Compromise is dead and buried. The "unconditional" policy is to be allowed to prevail, and the bill wiping out the silver-purchasing clause of the Sherman law is to go to a vote as it passed the House. That, of course, means its passage by the Senate and its approval by the President.

The Democratic silver Senators were the first to return to reason and haul down the flibustering flag. The Republican silverites followed their lead, and no obstructionists now appear on the surface except the three Populists. Under these circumstances it may be fairly predicted that the disgraceful scenes in the Senate will speedily be brought to a close, and that the business of legislation will be resumed.

This result will be mainly due to the

resolute attitude of the Administration. The recent vigorous effort to bring about compromise was really the means of hastening the crisis, because it afforded an opportunity of letting the Democratic Senators know distinctly and positively that no compromise would be acceptable to the President or the Secretary of the freasury. The chief honors of the triumph of unconditional repeal will herefore go to President Cleveland. But Senator Hill's course has conlargely than appears on the surfacelaurels. The plain, practical fact is that the Republican Senators, one and all, feared the success of Mr. Hill's cloture rule proposition, which would affect in the future the inevitable fight over the Tariff and the Federal Election bills. They preferred the passage of unconditional repeal, with all the credit it would bring to the Democratic Administration and the Democratic party, to a rule that would tie their hands when the Tariff and Election questions come before them for action.

Of course, the end is not yet reached. It is not likely that any change of policy will take place among the silver Senators on the Republican or Democratic side. But the Populists may pos off the vote until after election. But this is scarcely probably, and there is litle doubt that within a few days the vote will be taken in the Senate on the unconditional repeal bill and the bill will become a law.

Score one for the Democratic platform of 1892

### WELL, WHY NOT!

A few days ogo Senator Butler made an amusing speech in the Senate, in which, commenting on the harmony that prevails in the Democratic party he drew a picture of an imaginary meet ing between President Cleveland and Benator David B. Hill, in which the gushing sentiment of the once estranged aders would be touching to behold Now comes a rumor from Washing ton that the President and the New York Senator are about to bury the

hatchet and to become reconciled. The story is that Senator Hill's stalwart backing of the President's unconditional repeal policy, his hearty indorse ment of Mr. Cleveland's administra tion in his Brooklyn speech, and his evident determination to aid in carrying through all the reform measures to which the party is pledged, have en-tirely won over the President, who has

taken the initiative in arrangements for a friendly meeting.

Well, why not? President Cleveland and Senator Hill are the two beading Democrats of the Empire State. They are in accord on the fundamental principles of Democracy. Why should petty differences keep them apart? The measure of Mr. Cleveland's ambition is measure of Mr. Cleveland's ambition is full. WHEN THE SILVER BILL'S REPEALED. The Silver bill is going to be repealed! we are now blest with as we look forward to the treasure-teeming days that will follow the doom of the Silver bill.

That bill brought us all our woes. It ras rammed tight with calamity, but the country didn't know it was loaded. Now that it is all up with the mischievous measure, we expect a change. Rents will probably come off their perch, and wages will begin to soar. Harlem grocers will quit asking four times as much for family supplies as the grocers of Murray Hill demand. The worm in the damask cheek of the roasted chestnut will not turn when crushed. Apples will be the same size all the way down the barrel, and Fourth Ward votes will bring a higher figure than they have brought at any time since the war.

There will be more beer concealed under the foam in a five-cent schooner than their is now, and hair tonic will vield happier results than it has heretofore. Husbands will not have to smoke so few cigars and get such light lunches in order that their wives and children may see a world's fair. Mr. White was able to come to town on Monday, but President Trimble told him to go home and recuperate for a week before returning to business. At the bank this morning it was said that no blame was attached either to the physician giving the prescription or to the druggist, and its effect was due to the peculiar susceptibility of the patient to the poisons contained in the dose.

President Trimble said that Mr. White took only the regular dose prescribed, fifteen drops of the liquid, and that its effect was almost instantaneous.

Director Smith, of the Central Park Menagerie has given up a corner in his office to a queer-looking little kitten, which he is bringing up on the bottle. It is a baby lecpard, which was born open. Its parents are Pedro and Flornce, who live in a cage in the lionhouse. It would not have been wise to leave the infant to their care, in Mr. Smith's opinion, so he has taken charge of the new-comer, and the big wastepaper basket in his private office makes as comfortable a home as could be desited.

In the mean time Chicago—that most irreverent city—affects to regard Mrs. Kendal's indignation as an ad. for herself and her play. This is pathetic. Herman Periet, the composes of Theresa Vaughn's song, "Love, Sweet Love," and the wielder of the conductor's baton in "1492," says that the words of the song are anonymous. He found them in a torn copy of an illustrated London paper which somebody hau left in a street car. He could not get them out of his head, and the melody came to him while he was making a night jump through New England. By the bye, it is not generally known that Periet came to America as a solo planist with Max Strakosch.

The report that a new attraction will take the place of "The Corneracker" at the Fourteenth Street Theatre next month, is vigorously denied. There is a professional mattnee performance of that play to-day. By the bye, most Wednesday matinees are professional. The New York public does not seem to hanker for them.

Answer-If we drop a lump of sugar

into a cup of tea we find it takes con-siderable time to melt if allowed to re-

main at the bottom of the vessel; but if we hold it up in the spoon near the surface of the liquid it dissolves much

more speedily. This is owing to the

### Chocolate Eclaira Prepare the batter the same as for

ream puffs. Put it into a pastry bag and press it out upon well-buttered tins. By pressing the bag firmly and drawing it very slowly towards you while squeezing you will make the eclairs of a rope-like shape. They should be about five inches long. Allow two inches space between each eclair. Bake in a quick oven twenty minutes, or until thoroughly done. If properly baked the inside will be hollow, with a delicate, tender crust outside. When cold fill with the same cream-puff filling. The icing-melt two ounces of chocolate, then add four tablespoonfuls of powdered sugar and stir until it forms a paste. Dip the bottom of each eclair into the icing and stand it away to dry. Eclairs may be filled with whipped cream or preserved fruits and iced with orange icing.
